

## Equal Payment Plan Enrollment (Budget)

Residential and Small Commercial Account Holders Only

Thank you for your interest in an Equal Payment Plan. We are pleased to offer this service to our customers.

Here's how it works. First, an average amount is calculated based on past electric use for the service address (and water, sewage if applicable). That average becomes your new monthly payment. You will still be aware of exactly how much electricity (and water, sewage if applicable) you use because your monthly bill will show your actual usage in addition to your Equal Payment amount.
