

SMALL BUSINESS PROGRAM

GROW YOUR BUSINESS WITH ENERGY SAVINGS

INTRODUCING THE SMALL BUSINESS PROGRAM

Drive your business forward with equipment upgrades that increase energy efficiency through the Save on Energy Small Business Program. Receive up to \$2,000 for eligible lighting equipment and up to \$2,500 for eligible non-lighting equipment. Undertaking energy-efficiency retrofits will enhance employee productivity and lead to a better customer experience.

WHAT IS THE SMALL BUSINESS PROGRAM?

The Save on Energy Small Business Program is designed to help small businesses make equipment improvements that reduce energy consumption, at no cost. Leveraging the success of the former Small Business Lighting Program, this new and improved program now offers small businesses direct-install incentives on an expanded range of equipment – both lighting and non-lighting.

KEY BENEFITS

Lower electricity bills

Reduced maintenance and operating costs

Increased employee comfort and productivity

Higher customer satisfaction

WHAT YOU CAN RECEIVE

FREE ON-SITE assessment of lighting, refrigeration and HVAC equipment and installation of eligible energy-efficient replacements

UP TO \$2,000 for eligible energy-efficient lighting upgrades

UP TO \$2,500 for eligible energy-efficient non-lighting upgrades

HOW IT WORKS

1.

Visit www.saveonenergy.ca/SBP or call **1-833-825-7283** to schedule a free on-site assessment to start identifying energy-efficiency opportunities for your business, including lighting, refrigeration and smart thermostat upgrades.

2.

After the assessment, you will be presented with options for energy-efficient upgrades that can be installed in your business, free of charge. If you choose to proceed, you will be sent a participant agreement and work order for your review and signature.

3.

Qualified Save on Energy delivery partners will handle the entire installation process on your behalf – everything from searching for a qualified contractor to obtaining quotes and scheduling installations, and even project management of the retrofit and cleanup.

ELIGIBILITY

Businesses across Ontario with an operating capacity of 50 or fewer employees may qualify for the program, including small commercial and institutional facilities across a variety of industries, such as:

Retail stores

Medical and pharmaceutical services

Food and hospitality services

Grocery and specialty food stores

Pet and grooming services

Automotive repair services
